

March 29, 1973

(Start Belt #3)

out of the right to pull a trailer on a road or a highway without being picked up by the patrolmen. Some are picked up and some are not. They don't know for sure what is right this just straightens it out, and as far as Senator Anderson's object to this I think it is absolutely ridiculous. We have probably thirty or forty implements we can call trailers, this is completely harrassed the farmer if, we had to have a license on everything that we pulled, and it is so difficult now to even get those safety things on, it's so easy, I live along the highway, and it is so easy to forget to put one of those decals on, we have that to worry about, now we will have a license, we'll have to hire an extra man to follow these rigs up to be sure they have the license that's hooked on, then the decal and probably a few other things before it is all over with, but I think we should go ahead and accept Senator Dickinson's amendment, it is good, it is sound, it is absolutely no problem at all.

PRESIDENT: Alright, any further discussion of the Dickinson amendment to LB 384 on select file, Senator Dickinson do you care to close on your amendment? Senator Dickinson is closing now on his amendment to LB 384 on select file.

SENATOR DICKINSON: Well I don't think there is too much to say in closing except to add one thing, this would require in licensing these trailers, if you farm land on two sides of a county road you would not legally be able to pull a wagon of any kind in to haul a crop from one side of the road to the other, cause when that wagon crossed that road it was then on county property and this would require you to license it, and this seems to me, well as highly impractical. I urge the adoption of the amendment.

PRESIDENT: The question is shall the Dickinson amendment be adopted, all those in favor vote aye, all those opposed vote no. Have you all voted? The Clerk will record.

CLERK: 30 ayes, on motion to adopt.

PRESIDENT: Okay, the amendment is adopted, are there other amendments to 384? We need a motion then to advance 384. Senator Stull.

SENATOR STULL: I move that 384 as amended be advanced to E&R for engrossing.

PRESIDENT: The motion now is to advance 384 as amended, all those in favor of advancing the bill please say aye, those opposed say no, so ordered, the bill as amended is advanced. I believe that cleans up, yeah they bracketed 496. Are there motions to reconsider?

CLERK: Yeah, I've got a whole series of stuff here. You want to go? Mr. President we have a new bill LB 506A introduced by Senator Carpenter. Title read. Then Mr. President I have a motion here to suspend the rules and introduce the following bills, it's signed by Senator Chambers, but I understand Senator Barnett is the Vice Chairman of the Government Committee will handle the motion. The, attached to the motion are fourteen bills.

PRESIDENT: Alright, Senator Barnett, back to you.

SENATOR BARNETT: Mr. President, and members of the legislature, these are a bunch and I'm going to call them a bunch, of election bills sent forth to the Government Military Committee by the Secretary of State, Allen Beerman, some of them are very
